Ring Sizer

To use our Ring Sizer, follow these steps:

Print it making sure to uncheck the "fit to page" on your print screen.

Cut out the sizer. For accuracy, the width of the bar should measure one inch (1")

Make a slot in the sizer by cutting along the dotted line.

Roll the sizer into a circle with the numbers on the outside.

Insert the end of the tab into the slot.

Place the sizer around your finger and pull the tab through the slot until the paper is snug around your finger.
